

# How to Create Your Story Transporter

The Story Transporter is where participants can submit their work to be sent off into the Lost & Found national project “universe”!

## MAKING THE TRANSPORTER

- » **You can make your Story Transporter from any cardboard box. The contents the kids and caregivers place in the box will be sheets of letter-size paper, but the size of the box will depend on the size of your group and how many submissions you expect.**
- » **Although not necessary, you might have fun creating a box that resembles a spaceship. Get creative!**
  - On the next page you will find some images you can use. Print and cut them out and glue them on your box. The images are:
 

<b>1.</b> aliens driving the ship	<b>2.</b> a button
<b>3.</b> two lights	<b>4.</b> a vent.
  - Other ideas for decorating the box are shown below.
